NIGHT VISION IS MORE THAN YOU THINK.

Good night vision keeps you and your loved ones **SAFE.**

GOOD NIGHT VISION HELPS YOU:

- Drive safely at night
- See obstacles and avoid falls
- Protect your loved ones

CHANGES IN NIGHT VISION CAN BE AN EARLY SIGN OF A RETINAL PROBLEM.

NIGHT VISION CAN BE MEASURED.

Dark adaptation testing measures how well your eyes adjust to the dark.

YOU MONITOR YOUR HEALTH.

You monitor your blood pressure. You monitor your cholesterol. Why not monitor your night vision?

YOUR VISION. YOUR FUTURE.

Ask your eye care professional about dark adaptation testing.
